BENJON IS PREPARED FOR OHIO NORTHERN

(Special to the Advocate)
Granville, O., Oct. 9.—The Denison Varsity is in fair fettle for their first game against Ohio Northern at Beaver field Saturday at 2:30. Livingston expects a hard battle and will spring some new plays on the up state squad.

As a result of the hard scrimmages and snappy signal practices, the team is rapidly rounding into fine condition. The Varsity and second string men scrimmaged for an hour Tuesday afternoon. The offensive work of both teams was brilliant; but the defense was a trifle off color. Several new plays were worked to considerable advantage and their success is assured in a hard game.

Livingston worked the Varsity against the strong freshman team Wednesday night. The Varsity showed a good offense but was weak on defense, which will have to be perfected before Saturday's game. The work of Hoskins at end was brilliant. He has great skill in handling forward passes and his tackling is low and hard. Roubush demonstrated his ability to throw forward passes with his old time form. Captain Black, Reese and Thiele showed up well on the line.

Shaughnessy who is playing in the backfield was unfortunate in receiving a broken nose in the last minute of scrimmage against the freshmen and will be out of the game for some time.

Mathews who played a brilliant game at fullback last year may not play Saturday. "Matty" is nursing a lame shoulder which has been bothering him all season. It is hoped he will soon recover as his speed and tackling ability would make a valuable asset to the team.

Captain Black and Marsh will be depended upon for the place kicking. Marsh has shown great improvement this week and boots the ball over the bar with great frequency.

The probable line up for the game Saturday will be: left end, Haskins; left tackle, Watkins; left guard, Thiele or Biggs; center, Reese; right guard, Willis or Stankard; right tackle, Black (captain); right end, Woodyard, Wickenden or Hickman; quarter back, Ladd; right half, Swanson; full back, Biggs, Hickman or Sellers; left half, Roubush. All the players are in good trim except for a few minor bruises which will be worked out by Saturday.

Mrs. Coons and Mrs. Pence will honor all the seminary girls with a reception on Saturday afternoon, between the hours of 2 and 5, at the home of Mrs. Coons.

Theatres

Orpheum Theatre.

The manager of the Orpheum Theatre has been very fortunate in securing for tonight's bill a thrilling military drama in four parts. It deals with the secret service of foreign countries and the desperate plotting of two countries about to engage in open warfare, with just enough of "the sweetest story ever told," to make the piece above reproach on every point. The leading woman in the film is the Princess Ruspoli, a famous European beauty, possessed of remarkable talent as an actress.

"Shattered Ideals" in the Kinemacolor pictures promises to be a very interesting part of tonight's program.

As an extra added attraction for the next four days we have Harry Wheeler in a novelty musical, or one man band.

"Uncle Tom's Cabin."

The Auditorium will on Friday, matinee and night, offer its patrons Kibble and Martin's grand spectacular revival of "Uncle Tom's Cabin." This attraction is classed as the biggest scenic production of this wellknown story the American stage has ever seen, it being necessary to utilize two special seventy-foot cars to transport the fifty people, scenery and equipment. No such amount of money as Kibble and Martin have spent on this production has ever before been expended on this neglected and much-abused but still most successful of American dramas.

Howe's Pictures.

No portion of our globe can rival the wondrous natural scenery of the Grand Canyon of Arizona to be portrayed by Lyman H. Howe at the Auditorium on Thursday, October 16. It is the acme of sublimity. This mighty chasm has been figuratively described as Nature wounded unto death, with a colossal gash, two hundred miles in length and a mile in depth, in her bared breast, from which is flowing a stream of life-blood—the Colorado river. The spectacle conveys a sense of mystery and fascination. It is bewildering in its immensity. Whether peering over precipitous cliffs into yawning abysses, or gazing upon the mountains glistening with snow which are located in the Canyon, the scene is always so impressive as to render spectators spell-bound with awe. Here the tremendous process of erosion has molded mountains, carved canyons, and etched innumerable grotesque figures and fantastic forms of infinite variety. Some are gigantic, others seem like pygmies in comparison. The panorama in its vastness suggests the thought that here the earth seems to have been suddenly rent asunder—that spectators are standing on one of the brinks of severed hemispheres. Thrilling rescues of survivors from an ocean greyhound during a terrible gale; a conflagration of several hundred thousand barrels of oil; an aeroplane ride over Paris; the wondrous forms of marine life; study in palmitry; yachting off Monte Carlo; and a motor ride through the French Alps are some of the other big features to be presented.

"Honey Boy" Minstrels.

When "Honey Boy" Evans offers his new program of minstrelsy at the Auditorium, Wednesday, October 16, he promises a surprise in the introduction of a new voice in minstrelsy. The newcomer is Master Paul Van Dyke, he is a Swiss yodler and George Evans vouches for his excellence. The yodler is rare indeed who can give a satisfactory rendition of this peculiar style of singing. Master Van Dyke is a native Swiss, and the possessor of a rarely sweet voice. All his life he has been singing the native songs of his own land and it is his natural style which he now brings to minstrelsy with the Evans company. Other sweet singers in the organization are Vaughn Comfort, James Meehan, William H. Thompson, Joseph Gillespie and Ed Lindeman. The introduction of these vocal stars takes place in the beautiful first part scene called "The Good Old Summer Time," and shows the semi-circle of olden times framed in a modern scenic picture. This setting is from an idea conceived and executed by Lunt and Wickes, scenic artists for Daniel Frohman's New York Lyceum Theatre. Seats ready Monday.

Brady Success Continues.

One of the important theatrical attractions in Newark this season will be William A. Brady's production of Louisa M. Alcott's "Little Women," which scored an immense success in New York and Chicago last year.

Although "Little Women" the book, was written over forty years ago, the stage version, for which Marian de Forest is responsible, has all the popularity of the book, enjoyed by millions of readers old and young, in every civilized country in the world. Miss de Forest has reverently reproduced the quaintness and sweetness of "yesterday" in old New England, and a capable company of New York players gives the story of Meg, Jo, Beth, Amy and all the other delightful characters in the book a faithful presentation. "Little Women" will be the attraction at the Auditorium Theatre Monday, October 27, matinee and night.

"Miss Dolly Dimples."

Were you ever ill and in need of a nurse? Then you can understand the good work done by the "Visiting Nurse Chapter" of the "The King's Daughters." The visiting nurse goes into the homes of needy families relieving suffering, oftentimes saving lives and preventing the spreading of disease thereby protecting your city. "Can you not help this worthy cause?" We will tell you how. On the evening of Oct. 17 and 18 the musical comedy "Miss Dolly Dimples" will be presented under the auspices of the "Visiting Nurse Chapter" of "The King's Daughters." Complete cast of characters will appear in tomorrow's paper. This cast is composed of the leading artists of the city. Do not fail to buy a ticket if you want to help this worthy cause and be delightfully entertained.

FAST BOUT FOR THE DAYTON FANS

Dayton, Oct. 9.—Tommy Jones of New Castle, Pa., and "Knockout" Sweeney of New York staged one of the best 15-round fights ever witnessed in this vicinity last night and the referee's verdict of a draw at the close was a just one. Both boys fought like tigers throughout, but neither could secure a telling advantage. Jones' left-hand jab worried Sweeney considerably and had the latter on the run several times, but the New Castle boxer did not appear to follow these openings. Sweeney fought a clever battle and evened up things with Jones in the tenth round, when he opened a bad cut over his rival's right eye and had him on the defensive throughout. Tommy Bergin of Lewiston, Me., was unable to go into the ring for his 15-round bout with Gus Christie of Milwaukee, and Tommy Madden of Brooklyn was substituted. He went down for the count in the third round.

Matty Hits Safely; Heart Fails Watcher

New York, Oct. 9.—A middle-aged man, who had been leading the cheering in front of the Park Row bulletin board yesterday, fell dead of heart disease as the news was flashed that Mathewson had made a hit in the tenth inning. The victim of over-excitement carried a Bowery mission membership card in his pocket and letters addressed to Edward O'Brien.

S. S. CONVENTION DELEGATES YELL FOR MATHEWSON

Lima, Oct. 9.—Cheers shook the hall when the Ohio Sunday school convention last night ordered its resolutions committee to send a telegram to Christy Mathewson, the New York pitcher, congratulating him on his work in yesterday's game and wishing for him future success in the world's series.

The convention declared the Sunday school should stand for clean athletics and sent its message in appreciation of the stand taken by Mathewson for clean baseball and no Sunday games.

W. A. Eudaly, Middletown, was selected as president of the Ohio State Sunday School Association for the twelfth time. Other officers elected are: B. M. Hastings, Akron, vice president; Edmund F. Arras, Columbus, recording secretary; E. L. Barrett, Springfield, treasurer, and as members of the executive committee, Ed L. Young, Norwalk; Robert G. Cowden, Dayton; Roy R. R. Bigger, Cleveland; George F. Barrois, Canal Winchester; C. F. Strecker, Marietta; W. G. Clippinger, Westerville; Horace Drake, Cincinnati; W. H. Schauss, Springfield; W. H. Radebaugh, Lancaster; Joseph L. Free, Cleveland; Herman Heston, Columbus; J. E. Allison, Dayton; Dr. Henry C. King, Oberlin; Dr. W. H. Boyd, Columbus; J. P. Hunsicker, Williamsport; W. B. Anderson, Portsmouth; J. F. Stewart, Piqua; E. L. Briggs, Toledo; G. M. Gray, Fostoria; Alexander Boxwell, Franklin; Professor C. C. Fox, Findlay; Charles A. Graham, Lima; Professor John H. Fouch, Canton; J. V. Schrock, Youngstown and W. B. Jones, Van Wert.

Dr. Howard Russell, founder of the Anti-Saloon League, declared in an address that a joint resolution will be in congress in December to submit to the states an amendment to the constitution abolishing the manufacture and sale of intoxicating liquors in the United States.

BAKER STRIKES OUT; FAN FALLS DEAD

Philadelphia, Oct. 9.—While watching an electric scoreboard during yesterday's game between the Giants and Athletics, John Sherrick collapsed on the sidewalk and died a few minutes later. It was during the first inning of the contest and eye witnesses declare that Sherrick had just yelled "Give us another homer, Baker." When the play reproduced on the scoreboard showed that the Athletics' star batsman had struck out, the excited fan dropped to the pavement. Heart failure is believed to have caused his death.

Smooth, Hairless Skin Follows this Treatment

(Collet-Tips)
Among the home-beauty helps, none is more important than that which will free the skin from annoying hairy growths. A simple method to rid the skin of unsightly hairs is to make a paste by mixing powdered delatone with water and applying for about 2 minutes, then rubbing off. With it comes every bit of hair and when the skin is washed it will be firm and free from blemish. Results are more satisfactory if the delatone is bought in an original package.

IF BACK HURTS BEGIN ON SALTS

Flush the Kidneys at once when Backache or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a wellknown authority. Meat forms uric acid which clogs the kidney pores so they are unable to filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of stinging, get about four ounces of Jad Salts from any reliable pharmacy and take a teaspoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful, effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

Good Democratic Outlook in Our City

The Advocate gladly notes the evidence of good feeling that is daily growing among the Democratic voters of Newark toward the vindication of the city administration. It has no other meaning than that the entire Democratic city ticket will be elected by an increased majority on November 4. Mayor Swartz has made good and deserves a re-election by an increased majority. Then the superiority of every candidate of the Democratic municipal and township ticket is so well recognized that voters cannot fail to line up strongly in its support and make it manifest even before election day.

Columbus Day

The American people have never been strong on holidays. Formerly the farm boy scarce expected to get July 4 off the hay-field. Even now many merchants in small cities keep stores open holiday mornings.

Columbus day, now a legal holiday Oct. 12, in 24 states, is the latest in the family of popular celebrations. To many industrious persons, a public holiday is an occasion of popular dissipation, at the best a time when people take wearisome jaunts unfitting themselves for work. To them the growing observance of this October festival means simply stoppage of production, loss of wages for working people, and the waste of purposeless loafing.

To elderly people who remember when there were few holidays and no vacations, often 12 hour periods of work in shops, present day habits of loafing seem absurd. They forget

that in the simple old times, while there was great persistence in labor, there was little speed. The man who could stop an hour at the bench to gossip with his neighbors took his holidays as he went along.

In these days when every motion is timed to the revolutions of machinery, or the office clock, the human body is under severe strain. There are none too many breaks. A day in the woods may leave the escaped worker tired at night. But a wholesome break has been made in the gray monotony of toil.

As for the occasion that draws one out in the sunshine, it makes little difference. Christopher Columbus is worthy of any significance of the day. In a time of ignorance and fear, he stood for enlightenment, progress, and heroism. Had this continent been properly named it would have been called Columbia instead of America.

There are said to be a good many deer and moose in the woods this season, and if they fall short there are always plenty of guides.

So far none of the governors have been impeached for winning money in the stock market, but then there isn't much danger of that happening.

Custom officers will not be permitted to snatch arretries out of women's hats, but if the officers would have their hair cut close it might be safe.

President Wilson visited in the hospital the boy whom his automobile ran over and gave him good cheer. The usual proceeding is to leave a fellow in the road, as perhaps some other car may come along and finish him up.

Uncle Walt's Philosophy

Ready for Winter.

Is the furnace oiled and ready for its task? Not much longer in fact, for the winter soon is due, with its sting and storm and snow. That's the reason, gentle reader, why I ask: Have you banked the house the way it ought to be? Have you got a pile of kindling fair to see? Have you got your winter's slate ready for the grove and grate? Oh, you ought to try and pattern after me! For old winter never hits me unawares. I am ready when he rips around and tears, with my briar and my book, in the cozy snugness, with my feet upon a half a dozen chairs. All the careless man is always in the hole; when the blizzards and the tempests start to roll, he is lying here and there, in his fury and despair, begging dealers for a basketful of coal. And the dealers view him coming, with a trown, and they wait him with patience and turn him down, for their phones are bringing in, with a clangor and a din, such appeals from every corner of the town. How I wish you'd have some sense, you careless crew! How I wish you'd look ahead a day or two, and be ready for the storm with a house that's good and warm, and a larger full of comforting things to chew!

BOGASH SMASHES WORLD'S RECORD

Lexington, Ky., Oct. 8.—Frank Bogash Jr. lowered the world's record for the fifth heat yesterday when he won the Tennessee stakes, the free-for-all pacing feature of the Grand Circuit racing on the Lexington track, going the final mile in 2:03 1-2. The son of Frank Bogash won the first and second heats but lost the third and fourth to Flower Direct. He came back strong in the fifth and won in a drive by a narrow margin. The time in the third heat of this stake, 2:01, was within half a second of the record and was the fastest mile of the year.

The 2:05 pace, of which two heats were raced Tuesday, resulted in a straight heat victory for Hal B. Jr. Brannham Baughman being drawn before the start of the third heat.

The 2:12 trot also was a straight heat race, the winner being Jim Todd. Michigan Queen won the first two heats of the 2:08 pace and Walnut Grove took the third, the race going over in today's program.

Chlan, C. K. G. Billings' champion trotter, will attempt to lower the world's record of 2:03 with a running mate tomorrow.

The Transylvania, which for twenty years has been considered the all-time classic of the trotting turf, was the chief event of interest on the program of the Kentucky trotting horse breeders' meeting here today. The stake is for 2:08 trotters, 3 in 5 heats and worth \$5,000. Twelve horses were on the card to start, the list including Cheeny, Reusens, Newzel, Peter Thompson, Robert Milroy, Marigold, Cascade, Peter McCormick, Oakdale and Omar.

Other events on the card were the 2:17 trot, 2:12 class pace, both 3 in 5 heats, and the 2:08 pace which was unfinished today. It was announced today that Chlan would try later in the week to lower the world's trotting record.

"SKY PILOT" OF LUMBER JACKS GIVES ADDRESS

Rev. Frank Higgins, "sky-pilot" of the Minnesota lumber-jacks entertained a good sized audience at the First Presbyterian church Wednesday night with an interesting address on his work among the north-wood pines. Mr. Higgins has spent several years in religious work among the lumbermen and his description of his work and of the wonderful parish in the pine forests, attracted many from other churches taking advantage of the opportunity to hear the man. The hour was set for 8 o'clock that it might not interfere with the regular mid-week prayer service.

Thursday morning, Mr. Higgins spoke before the students of the Newark high school and his talk was well received.

While in the city, Mr. Higgins was a guest at the home of Rev. and Mrs. G. C. Hazlett of Hudson avenue.

SPANISH VETS WILL PARTICIPATE IN DISCOVERY DAY

At the regular meeting of Newark Camp, No. 23 United Spanish War Veterans held Wednesday night, an invitation from the Knights of Columbus, to participate in the dedication of a flag staff and the raising of "Old Glory" on the school grounds of the St. Frances de Sales parish, Sunday afternoon, October 12 (Discovery Day), was read and accepted. The camp will meet at Memorial hall at 1 o'clock. All ex-Spanish war soldiers, whether members or not are invited to join in this honoring of the "Stars and Stripes," the flag we all love. Badges will be provided for all who "fall in." By order of the commander, C. H. Rosebrough, adjutant.

MATTY'S FATHER IS PROUD OF THE KID

Tunkhannock, Pa., Oct. 8.—There was a gray-haired man watching the scoreboard here yesterday during the progress of the world's series games in Philadelphia to whom the success of Christy Mathewson meant more sentimentally than to any one else except, perhaps the Giant star pitcher himself. It was Mathewson's father, G. B. Mathewson of Factoryville. He had been summoned here as a witness in court proceedings, but when his name was called to take the stand he could not be found. Officers located him in front of the scoreboard.

How to Make Better Cough Syrup than You Can Buy

A Family Supply, Saving \$2 and Fully Guaranteed.

A full pint of cough syrup—as much as you could use for \$2.50—can easily be made at home. You will find nothing that is sold of the ordinary cough more quickly, usually conquering it inside of 24 hours. Excellent too, for whooping cough, whooping cough, bronchitis, asthma and bronchitis.

Mix one pint of granulated sugar with 1 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents worth) in a pint bottle, then add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours. This is just laxative enough to help relieve a cough. Also stimulates the appetite, which is usually upset by a cough. The taste is pleasant. The effect of pine and sugar syrup on the inflamed membranes is well known. Pinex is a most valuable concentrated compound of Norway white pine extract, rich in quercetin and other natural healing pine elements. Other preparations will not work in this combination.

This Pinex and Sugar Syrup remedy has often been imitated, but the old successful mixture has never been equaled. It is now used in more homes than any other cough remedy.

A guaranty of absolute satisfaction or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

The oceans cover about 144,550,000 square miles. "Great lands" is hardly the proper retort to this bit of information.

This is the 2500th anniversary of the birth of Weary Bungstarter, who put theirk in work. The combined efforts of the hoboes of the world have kept it there ever since.

Now, to the man who is the father of too many children, the women criticize most severely the woman who has none.

When a friend whom you have not seen for years looks you up it usually is for the purpose of asking a favor.

In a small town the easiest way to achieve the reputation of being a sport is to have seen a prize fight.

Generally speaking, the man who is capable of filling a \$10,000 a year job has one.

Eph Wiley says the sporting writers need offer no further evidence in support of their contention that Walter Johnson is a great pitcher. Eph says they have him convinced now.

Ruck Kilby says it is his observation that a good deal of the opposition to baseball comes from people who have seen the St. Louis Browns play it.

The most delicate woman can out-run a man if he chances to be chasing her. But no man can elude a woman if she is the pursuer.

In the case of an outrage, the average man feels that he has performed his whole duty when he has written to the papers about it.

The trouble with the man who owns a diamond stud is that he is likely to wear it in the bosom of an evening shirt.

When a politician especially desires to attract favorable attention he makes it a point to speak well of Lincoln.

WOULD STAMP OUT DANGEROUS HESSIAN FLY

Looking country farmers have begun an organized but united effort to stamp out the destructive Hessian fly. The remedy is said to be a simple one, which consists chiefly of sowing wheat as late as possible.

It is a matter of common knowledge that this season, as in recent seasons the method has been adopted, the majority of farmers who recognize the value of science in agriculture, are sowing their wheat late. While some began a week or so earlier than two or even three weeks ago, the majority of wheat raisers are sowing now, while some are only just beginning to plant the seed of the next crop.

It is said, in what of this method that early sown wheat develops to the point where the Hessian fly sets in its mischief before cold weather drives the pest to cover, and that in some instances where the wheat has been sown late enough to escape the fly's destruction, it becomes the depository for its eggs, and in the spring its young is hatched to continue the work of destruction for which its ilk is noted.

The Hessian fly is regarded as one of the most dangerous enemies of the grain industry in this country.

Wife Should Be Same Age or Older Than Husband and Better Educated

By WILLIAM RICE, the "Marrying Justice" of the Peace of Denver

NO WOMAN SHOULD MARRY UNDER TWENTY-FIVE AND NO MAN SHOULD MARRY UNTIL HE IS THIRTY, AND WHEN THEY DO MARRY THEY SHOULD BOTH BE THE SAME AGE, OR THE BRIDE SHOULD BE OLDER AND NOT YOUNGER.

The idea of marrying to grow up together is all wrong. If people these days waited until they had some sense there wouldn't be so many divorces and separations.

The reason why the old fashioned marriages did not result in divorce as frequently as the marriages of today was because couples hadn't got the habit of breaking up their partnership as soon as a few domestic windstorms blew up. Man and wife made the best of things, believing themselves wedded for life. Divorce has become a habit.

THE WIFE SHOULD BE BETTER EDUCATED THAN THE HUSBAND. He keeps on growing with the world through contact with the world. The better educated woman the more she realizes that the marriage contract is to a great extent a business contract with mutual obligations. It is the husbands of PARASITE WIVES who apply for divorce.

EVERY COUPLE SHOULD BE ENGAGED AT LEAST ONE YEAR. During that time the girl should follow the old German custom of gathering a trousseau of linen and various articles of clothing sufficient to last three years. It takes a man three years to find his bearings as head of a household and start a nest egg.

"CASCARETS" FIX SOUR STOMACHS

Gently move acids, gases and clogged up waste from stomach, liver and bowels while you sleep.

Get a 10-cent box now. That awful soreness, belching of acid and foul gases, that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, dizziness, and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets, they immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases, take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels. Then your stomach trouble is ended. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet, liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

PIONEER MERCHANT OF NEWARK CALLED TO ETERNAL REST

Ferdinand I. Mohlenpach, for Years One of City's Leading Business Men Died Wednesday Night After Extended Illness.

After an illness extending over two years, Ferdinand I. Mohlenpach, one of the best known and oldest of the German residents of the city, died at his home in Baker street, Wednesday evening at 7:20 o'clock. Death resulted from endocarditis.

Mr. Mohlenpach was a self-made man in every sense of the word. By his earnest and honest endeavor, he rose from a penniless German boy to a citizen of wealth and affluence.

He was born in Bruckeburg, Schamburg-Lippe, Germany, on August 24, 1850. His parents were Frederick H. and Wilhelmina Mohlenpach. In 1867 he came to America, working in New York, Philadelphia and Chicago. In 1872 he settled in Newark and shortly afterwards engaged in the ice business. In this enterprise he continued until 1907. In the year 1898 he purchased the china and wall paper store in South Third street from Mr. Warner, and placed his son John Mohlenpach in charge. The store has been conducted under the father's name until the first of October, 1913, when John Mohlenpach purchased the stock.

The deceased numbered his friends by his acquaintances. He was known especially for his integrity and honesty, and for his close application to his business affairs. In the home he was a kind and thoughtful father. He married Miss Elizabeth Sheetz of this city and three children with the widow survive. They are John Mohlenpach of this city, Wilhelmina and Frederick Mohlenpach, both of whom are students at Ohio State University. Also surviving are two brothers, Karl Mohlenpach of Columbus and Adolph Mohlenpach of Flagstaff, Ariz., and one sister, Miss Clara of Oenhausen, Germany.

Two years ago Mr. Mohlenpach suffered a breakdown and has since failed to regain his health. The illness resulted in dropsical conditions, which finally affected the heart after a sickness of two years and five months.

Mr. Mohlenpach was a member of no fraternal organizations but was affiliated with the German Lutheran church.

The funeral services will be held on Thursday afternoon at 2 o'clock at the home, No. 1 Baker street, Rev. Mr. Hoiler, pastor of the German Lutheran church and Rev. M. Schleifer officiating. Burial will be made in Cedar Hill cemetery.

CURED TERRIBLE HUMOR ON FACE

Could Not Go On Street Without Veil. Tells What Resinol Did For Her.

Philadelphia, Dec. 6, 1912.—"In December 1908, my face became sore, I tried everything that was recommended, and my face got worse instead of better. I spent over \$100 and got no benefit. The face and nose were very red and the eruption had the appearance of small boils, which itched me terribly. I cannot tell you how terrible my face looked all I can say is, it was dreadful, and I suffered beyond description. "I have not gone on the street any time since 1908 without a veil, until now. Just four months ago a friend persuaded me to give Resinol a trial. I have used three cakes of Resinol Soap and less than a jar of Resinol Ointment, and my face is perfectly free from any eruption, and my skin is as clear and clean as any child's." (Signed) Mrs. M. J. Bateman, 4256 Viola St.

Every druggist sells Resinol Ointment and Resinol Soap, but if you have any skin trouble, be sure you are getting the right one. Send for Dept. 14-M, Resinol, Baltimore, Md., for 4 free samples of each.

Society

A merry hay-ride was enjoyed by a number of Newark's younger social set on Wednesday evening. After a very enjoyable trip to Granville they returned to the home of Miss Irene Snouso near Newark where they all enjoyed a fine supper served by Mrs. Snouso. Those who partook were Misses Alice Williams, Catherine Stoepler, Laura Shultz, Marjorie Fisher, Minnie Henley, Florence Green, Lorie Swartz, Mildred Kuster, Cleo McDonald, Ada Young, Florence Hazlett, Irene Snouso, Messrs. Bud Schaller, Earl Evans, Howard Jackson, Neil Flood, Harold DeBorde, Paul Seelberg, Wilbur Mitchell, Carl Nutter, Charles Gray, Max Conn, Leonard Richardson, Charles Haslop. The party was chaperoned by Mrs. Henley and Mrs. Powell. After a delightful evening all returned home at a late hour.

BOWERS-THOMPSON
At 7:30 Wednesday evening Dr. Sparsa united in holy wedlock Mr. George W. Bowers of Centerville, O., and Miss Ethel Fann Thompson of this city. They were married at Rev. Sparks's home on North Fifth street in the presence of Mr. and Mrs. John C. Loyd, friends of the contracting parties. They will reside in Centerville.

On Wednesday afternoon the members of the Art Embroidery club were entertained by Mrs. Charles Grill at her home in South Third street. The hostess served dainty refreshments following the diversion of the club. On Oct. 22 Mrs. C. F. Inghop of Maple avenue will be hostess.

The Hatch home in North Fifth street presented a beautiful picture on Wednesday afternoon. It was laden with a profusion of greenery and autumn leaves, while garden flowers filled every available niche. Mrs. Annie Grace Barrows Hatch entertained at bridge and twelve tables were placed to accommodate nearly fifty players.

A dainty luncheon of several courses was served the guests.

The Tuesday Afternoon Bridge club will be entertained on the club day of next week at the home of Miss Sarah Buckingham in Hudson avenue.

On Friday afternoon Mrs. W. H. Davis will entertain at her home in Hudson avenue with a thimble party.

The members of the Wednesday Afternoon Thimble club were entertained on the club day of this week by Miss Francis Collins at her home in Hudson avenue. The afternoon was spent on the porch and a delicious luncheon was served the members and sixteen guests.

DILLON-TURNER
On Wednesday evening at 7 o'clock was solemnized the marriage of Miss Nellie Turner and Mr. James Clifford Dillon. The ceremony was solemnized by Rev. George Bohon Schmidt, pastor of the St. Paul's Lutheran church at his home in North Fifth street.

The bride was attended by her bridesmaid, Miss Katherine Frye. She was costumed in a gown of blue crepe de meteor with a hat of the same color. She carried a bouquet of bride's roses. The bridesmaid wore a gown of gray voile with a gray hat and carried pink roses. The groom was attended by his best man, George Kinsey.

Following the ceremony a wedding dinner was served at the home of Mrs. H. B. Wheeler in High street. The decorations and the appointments of the bride's tables were in yellow and white. Only the members of the immediate families were present.

Mr. and Mrs. Dillon left on a trip west and on their return will reside in Newark. The groom is a well drilled, while the bride has made her home with her sister, Mrs. H. B. Wheeler. Her traveling suit was of brown cloth, with hat of the same shade.

The Unity Reading Circle, for its initial meeting of the season 1913-14, convened at the home of Mrs. Dennis Bell in North Sixth street, Tuesday afternoon, when the following excellent program was rendered, the work for the year being planned largely along the line of civic improvement: "Vice is a monster of so frightful mien As to be hated, need, but to be seen."

President's Greeting—Mrs. Moore.

"Our City Federation Versus Vice"—Mrs. Mitchell.

"Civic Betterment in Newark"—Mrs. Millisor.

Critic—Mrs. Barriek.

Mrs. L. B. Fant and Mrs. E. E. Moore were elected delegates to the convention of Federated Women's Clubs of Ohio, at Chillicothe, on October 21 to 25.

During the social hour following the program an elaborate dinner was served by the hostess to the twenty-one members present and Mrs. Bell's guests, who were: Mrs. O. C. Larson, Mrs. Frank T. Hirst, Mrs. Mary Bell of Homer, Miss Cora Hausher, Miss Anna Frye, Miss Lucy Connell, Miss Marie Bell and Miss Mary Tucker of the Isle of Pines, W. I.

UTICA R. D. NO. 2.

Mr. and Mrs. H. J. Riffe and daughters Beatrice and Katharine of Johnston were guests, Sunday, of T. P. Edmar and family.

Miss Nellie Rowe of Homer visited with Misses Jessie and Bessie Chrisman over Sunday.

Mr. and Mrs. Roy Letts of Ashland are visiting with his parents, Mr. and Mrs. O. S. Letts this week. The Ohio Fuel Supply company is repairing the road from the pump station to Utica via Patton's corners preparatory to hauling some very heavy castings and some of the road officials would not let them take note as to how it is done and make some application along the roads in their jurisdiction especially along route No. 2.

THE FORWARD-LOOKING WOMAN

THE FIRESIDE WOMAN

By Barbara Boyd

Gentlemanly Politics.

"I wish a genuinely good humorist would arise in the land and write up the humor of the woman's movement," laughed the Forward-looking Woman. "I think the humorists are poking fun at it," replied the Fireside Woman. "At it, yes. But I don't mean that. I mean the humor in it, the whole thing, both sides. Seems to me, politics and all the things women are working for, are in the limelight as never before. The condition of many of these things at present makes them unfit for women, or so it is said; and so man, with his usual gallantry, is turning in and cleaning things up. In states where women vote, even the polling places, I understand, are being improved, taking on a coat of whitewash, so to speak; though I hope the improvement goes deeper than whitewash. But it is not only this that is funny; but the reasons that are being projected into the forensic arena as to why women should and should not progress. One of the latest that I have heard is that it is not ladylike. I wonder if it is ladylike to pay taxes. Here is what George William Curtis says in answer to this, and I think he shoots pretty straight, 'But gentlemen say they know a great many women who do not wish to vote, who think it is not ladylike or whatever the proper term may be. I have known a great many men who abstained from politics, because politics are so ungentlemanly. Now what of the proposition that I should not vote, because my gentlemanly neighbors do not vote? Suppose the majority of women do not wish to vote? Is that a reason for depriving one woman who is taxed of her equal representation?' I think it would be a curious looking crowd to get the women who think it is not ladylike to vote and the men who think it is not gentlemanly to vote, off in a bunch by themselves. I wonder what sort of government a crowd like that would evolve?"

"I guess the men would like to belong to the House of Lords and the women be their wives," suggested the Fireside Woman.

"Not altogether. There are some real men in the House of Lords. But even in such a case, I fear their well-bred composure would be disturbed. Things are seething in England far more than they are here. If it isn't ladylike or gentlemanly to vote, I fear we shall soon all be barbarians. But honestly, did you ever hear anything quite so silly? One has nothing but the utmost contempt for a man who thinks it is ungentlemanly to vote because we all recognize the importance of voting, and how vitally close this duty is to the very life of the nation. And I have an idea we will soon have the same feeling for the woman who considers it unladylike to vote. The 'world do move, you know,' laughed the Forward-looking Woman in conclusion.

Barbara Boyd.

Mme. Alda Reduced Twenty Pounds by Swimming in Europe

When Mme. Alda, the beautiful opera singer, and wife of Signor Gatti Cazazza, manager of the Metropolitan Opera House in New York, left for Europe in the spring, she weighed too much to suit herself. But how could she reduce. She asked the same question that every third woman asks during the course of her life.

In Europe she found the answer, an answer which might have been given her on any bathing beach in the United States—swimming. By swimming regularly and persistently every day for about two months she lost twenty pounds, and came back with a trim and almost sylph-like figure.

A wireless system between Great Britain and Canada will be in operation next September.

guilt in regard to any of the offenses contained in the category of the usual forms of official misconduct.

"And yet the impeachment managers are now seeking to remove William Sulzer from the office which he has thus honorably filled, fifteen months before the expiration of his term. The only answer is to be found in the articles of impeachment, adopted at dawn on that fatal, the 13th day of August, by the assembly of the state of New York in less than 36 hours after the presentation of the report of an investigating committee which the members of the assembly could not possibly have read or considered.

"When we analyze this collation of offenses we cannot fail to be impressed by the fact that the three fundamental charges relate to acts which occurred and were completed before the respondent entered upon the performance of his duties as governor and took his constitutional oath of office. The court has reserved determination of the question as to whether those transactions constitute grounds for impeachment. That question must now be decided. Will impeachment lie in this state for acts which do not constitute 'wilful and corrupt misconduct in office'?"

Mr. Marshall dwelt for nearly an hour on this subject, quoting legal precedent at length.

Find the best kept up house in your neighborhood and you'll find that honest, conscientious painting has done much to create its good condition.

Good paint, properly applied, not only beautifies but preserves as well. A proper choice of colors will do the former, but the latter depends solely upon the quality of the paint.

Aurora is an honest paint.

It is scientifically mixed from pure lead and zinc pigments, with pure linseed oil and turpentine. We could make more profit if we used cheaper materials but we prefer to make more friends.

Aurora spreads easily, covers well, dries firm, yet with an elastic surface that will not crack, blister or peel off.

For interior or exterior house painting, fences, barns and other buildings it is unequalled.

Comes ready for use in convenient sized cans.

For fine interior woodwork effects, use **Spartan Art Wood Stains**.

If you want to renew the finish on floors, doors, woodwork or furniture, **Spartana**, the faultless wood finish will do it, quickly and cheaply.

For plastered walls no other finish is so beautiful or sanitary as that obtained by using **Spartan Art Wall Finish**, a flat drying, washable wall paint.

For your floors use **Spartan Floor Wax**.

Good Democratic Outlook in Our City

The Advocate gladly notes the evidence of good feeling that is daily growing among the Democratic voters of Newark toward the vindication of the city administration. It has no other meaning than that the entire Democratic city ticket will be elected by an increased majority on November 4. Mayor Swartz has made good and deserves a reelection by an increased majority. Then the superiority of every candidate of the Democratic municipal and township ticket is so well recognized that voters cannot fail to line up strongly in its support and make it manifest even before election day.

Columbus Day

The American people have never been strong on holidays. Formerly the farm boy scarce expected to get July 4 off the hay-field. Even now many merchants in small cities keep stores open holiday mornings.

Columbus day, now a legal holiday Oct. 12, in 24 states, is the latest in the family of popular celebrations. To many industrious persons, a public holiday is an occasion of popular dissipation, at the best a time when people take wearisome jaunts unfitting themselves for work. To them the growing observance of this October festival means simply stoppage of production, loss of wages for working people, and the waste of purposeless loafing.

To elderly people who remember when there were few holidays and no vacations, often 12 hour periods of work in shops, present day habits of loafing seem absurd. They forget that in the simple old times, while there was great persistence in labor, there was little speed. The man who could stop an hour at the bench to gossip with his neighbors took his holidays as he went along.

In these days when every motion is timed to the revolutions of machinery or the office clock, the human body is under severe strain. There are none too many breaks. A day in the woods may leave the escaped worker tired at night. But a wholesome break has been made in the gray monotony of toil.

As for the occasion that draws one out in the sunshine, it makes little difference. Christopher Columbus is worthy of any significance of the day. In a time of ignorance and fear, he stood for enlightenment, progress, and heroism. Had this continent been properly named it would have been called Columbia instead of America.

A warship of a new type has been designed by the British Admiralty, and the first of eight now under construction has just been launched and named Aurora. She is a rather small but very swift cruiser, being required to maintain a speed of 30 knots; she is protected by a belt of five-inch armor, extending from stem to stern, and will mount a battery of guns of sufficient power to blow any unarmored craft out of the water. In fact, the function of the new vessel and her sister ships, will be to perform that service with respect to hostile destroyers. The latter were introduced for the purpose of destroying torpedo boats, and now the British are to have destroyers of destroyers. Naval construction seems to follow the lessons of experience. Those big slow ships of the Germans will be material for the junk pile in due time.

There are said to be a good many deer and moose in the woods this season, and if they fall short there are always plenty of guides.

So far none of the governors have been impeached for winning money in the stock market, but then there isn't much danger of that happening.

Custom officers will not be permitted to snatch airrettes out of women's hats, but if the officers would have their hair cut close it might be safe.

President Wilson visited in the hospital the boy whom his automobile ran over and gave him good cheer. The usual proceeding is to leave a fellow in the road, as perhaps some other car may come along and finish him up.

Uncle Walt's Philosophy

Ready for Winter.

Is the furnace oiled and ready for its task? Not much longer in soft days as may we have, for the winter soon is due, with its sting and storm and snow that's the reason, gentle reader, why I ask. Have you banked the house the way it ought to be? Have you got a pile of kindling (air to see?) Have you got your winter's slate ready for the stove and grate? Oh, you ought to try and pattern after me! For old winter never hits me unawares, I am ready when he rips around and tears, with my briar and my book, in the cozy insideness, with my feet upon a half a dozen chairs. Ah, the careless man is always in the hole; when the blizzards and the tempests start to roll, he is raging here and there, in his fury and despair, begging dealers for a basketful of coal. And the dealers view his coming with a frown, and then with him with glance and turn him down, for their phones are bringing in, with a clangor and a din, such appeals from every corner of the town. How I wish you'd have some sense, you careless crew! How I wish you'd look ahead a day or two, and be ready for the storm with a house that's good and warm, and a ladder full of something things to chew!

"SKY PILOT" OF LUMBER JACKS GIVES ADDRESS

The oceans cover about 141,550,000 square miles. "Great lands" is hardly the proper term to this bit of information.

This is the 2500th anniversary of the birth of Weary Bungstarter, who put the irk in work. The combined efforts of the hoboes of the world have kept it there ever since.

Next to the man who is the father of too many children, the woman criticizes most severely the woman who has none.

When a friend whom you have not seen for years looks you up it usually is for the purpose of asking a favor.

In a small town the easiest way to achieve the reputation of being a sport is to have seen a prize fight.

Generally speaking, the man who is capable of filling a \$10,000 a year job has one.

Eph Wiley says the sporting writers need offer no further evidence in support of their contention that Walter Johnson is a great pitcher. Eph says they have him convinced now.

Ruck Kilby says it is his observation that a good deal of the opposition to baseball comes from people who have seen the St. Louis Browns play it.

The most delicate woman can out-run a man if he chances to be chasing her. But no man can elude a woman if she is the pursuer.

In the case of an outrage, the average man feels that he has performed his whole duty when he has written to the papers about it.

The trouble with the man who owns a diamond stud is that he is likely to wear it in the bosom of an evening shirt.

When a politician especially desires to attract favorable attention he makes it a point to speak well of Lincoln.

WOULD STAMP OUT DANGEROUS HESSIAN FLY

Living county farmers have begun an organized but unfruitful movement to stamp out the destructive Hessian fly. The remedy is said to be a simple one, which consists chiefly of sowing wheat as late as possible.

It is a matter of comment that this season, as in recent seasons the method has been adopted, the majority of farmers who recognize the value of science in agriculture, are sowing their wheat late. While some began sowing as early as two or even three weeks ago, the majority of wheat raisers are sowing now, while some are only just beginning to plant the seed of the next crop.

It is said, in behalf of this method, that early sown wheat develops to the point where the Hessian fly gets in its mischief before cold weather drives the pest to cover, and that in some instances where the wheat has been sown late enough to escape the fly's destruction, it becomes the depository for its eggs, and in the spring its young is hatched to continue the work of destruction for which its ilk is noted.

The Hessian fly is regarded as one of the most dangerous enemies of the grain industry in this country.

SPANISH VETS WILL PARTICIPATE IN DISCOVERY DAY

At the regular meeting of Newark Camp, No. 23 United Spanish War Veterans held Wednesday night, an invitation from the Knights of Columbus, to participate in the dedication of a flag staff and the raising of "Old Glory," on the school grounds of the St. Frances de Sales parish, Sunday afternoon, October 12 (Discovery Day), was read and accepted. The camp will meet at Memorial hall at 1 o'clock, All ex-Spanish war soldiers, whether members or not are invited to join in this honoring of the "Stars and Stripes," the flag we all love. Badges will be provided for all who "fall in." By order of the commander.

MATTY'S FATHER IS PROUD OF THE KID

Tunkhannock, Pa., Oct. 9.—There was a gray-haired man watching the scoreboard here yesterday during the progress of the world's series games in Philadelphia to whom the success of Christy Mathewson meant more sentimentally than to any one else except, perhaps the Giant star pitcher himself. It was Mathewson's father, G. B. Mathewson of Factoryville. He had been summoned here as a witness in court proceedings, but when his name was called to take the stand he could not be found. Officers located him in front of the scoreboard.

How to Make Better Cough Syrup than You Can Buy

A Family Supply, Saving \$2 and Fully Guaranteed.

A full pint of cough syrup—as much as you could use for \$2.50—can easily be made at home. You will find nothing that holds of the ordinary cough more quickly, usually conquering it inside of 24 hours. Excellent, too, for spasmodic croup, whooping cough, bronchitis, asthma and bronchitis.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents worth) in a pint bottle, then add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

This is just laxative enough to help relieve a cough. Also stimulates the appetite, which is usually upset by a cough. The taste is pleasant.

The effect of pine and sugar syrup on the inflamed membranes is well known. Pinex is a most valuable concentrated compound of Norway white pine extract, rich in guaiacol and other natural healing pine elements. Other preparations will not work in this combination.

This Pinex and Sugar Syrup remedy has often been imitated, but the old successful mixture has never been equalled. It is now used in more homes than any other cough remedy.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

BOGASH SMASHES WORLD'S RECORD

Lexington, Ky., Oct. 9.—Frank Bogash Jr. lowered the world's record for the fifth heat yesterday when he won the Tennessee stakes, the free-for-all pacing feature of the Grand Circuit racing on the Lexington track, going the final mile in 2:03 1-2. The son of Frank Bogash won the first and second heats but lost the third and fourth to Flower Direct. He came back strong in the fifth and won in a drive by a narrow margin. The time in the third heat of this stake, 2:01, was within half a second of the record and was the fastest mile of the year.

The 2:05 pace, of which two heats were raced Tuesday, resulted in a straight heat victory for Hal B Jr. Branham Baughman being drawn before the start of the third heat.

The 2:22 trot also was a straight heat race, the winner being Jim Todd. Michigan Queen won the first two heats of the 2:08 pace and Walnut Grove took the third, the race going over in today's program.

Ulian, C. K. G. Billings' champion trotter, will attempt to lower the world's record of 2:03 with a running mate tomorrow.

The Transylvania, which for twenty years has been considered the all-time classic of the trotting turf, was the chief event of interest on the program of the Kentucky trotting horse breeders meeting here today. The stake is for 2:08 trotters, 3 in 5 heats and worth \$5,000. Twelve horses were on the card to start, the list including Cheeney, Reusens, Newzel, Peter Thompson, Robert Milroy, Margold, Cascade, Peter McCormick, Oakdale and Omar.

Other events on the card were the 2:17 trot, 2:12 class pace, both 3 in 5 heats, and the 2:08 pace which was unfinished from yesterday. It was announced today that Ulian would try later in the week to lower the world's trotting record.

Wife Should Be Same Age or Older Than Husband and Better Educated

By WILLIAM RICE, the "Marrying Justice" of the Peace of Denver

NO WOMAN SHOULD MARRY UNDER TWENTY-FIVE AND NO MAN SHOULD MARRY UNTIL HE IS THIRTY, AND WHEN THEY DO MARRY THEY SHOULD BOTH BE THE SAME AGE, OR THE BRIDE SHOULD BE OLDER AND NOT YOUNGER.

The idea of marrying to grow up together is all wrong. If people these days waited until they had some sense there wouldn't be so many divorces and separations.

The reason why the old fashioned marriages did not result in divorce as frequently as the marriages of today was because couples hadn't got the habit of breaking up their partnership as soon as a few domestic windstorms blew up. Man and wife made the best of things, believing themselves wedded for life. Divorce has become a habit.

THE WIFE SHOULD BE BETTER EDUCATED THAN THE HUSBAND. He keeps on growing with the world through contact with the world. The better educated the woman the more she realizes that the marriage contract is to a great extent a business contract with mutual obligations. It is the husbands of **PARASITE WIVES** who apply for divorce.

EVERY COUPLE SHOULD BE ENGAGED AT LEAST ONE YEAR. During that time the girl should follow the old German custom of gathering a trousseau of linen and various articles of clothing sufficient to last three years. It takes a man three years to find his bearings as head of a household and start a nest egg.

"CASCARETS" FIX SOUR STOMACHS

Gently move acids, gases and clogged up waste from stomach, liver and bowels while you sleep.

Get a 10-cent box now.

That awful soreness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, dizziness, and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels. Then your stomach trouble is ended. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

PIONEER MERCHANT OF NEWARK CALLED TO ETERNAL REST

Ferdinand I. Mohlenpach, for years one of the city's leading business men, died Wednesday night after extended illness.

After an illness extending over two years, Ferdinand I. Mohlenpach, one of the best known and oldest of the German residents of the city, died at his home in Baker street, Wednesday evening at 7:20 o'clock. Death resulted from endocarditis.

Mr. Mohlenpach was a self-made man in every sense of the word. By his earnest and honest endeavor, he rose from a penniless German boy to a citizen of wealth and affluence.

He was born in Bruckeburg, Schamburg-Lippe, Germany, on August 24, 1856. His parents were Frederick H. and Wilhelmina Mohlenpach. In 1867 he came to America, working in New York, Philadelphia and Chicago. In 1872 he settled in Newark and shortly afterwards engaged in the ice business. In this enterprise he continued until 1907. In the year 1898 he purchased the china and wall paper store in South Third street from Mr. Warner, and placed his son John Mohlenpach in charge. The store has been conducted under the father's name until the first of October, 1913, when John Mohlenpach purchased the stock.

The deceased numbered his friends by his acquaintances. He was known especially for his integrity and honesty, and for his close application to his business affairs. In the home he was a kind and thoughtful father.

He married Miss Elizabeth Sheetz of this city and three children with the widow survive. They are John Mohlenpach of this city, Wilhelmina and Frederick Mohlenpach, both of whom are students at Ohio State University. Also surviving are two brothers, Karl Mohlenpach of Columbus and Adolph Mohlenpach of Flagstaff, Ariz., and one sister, Miss Clara of Oenhausen, Germany.

Two years ago Mr. Mohlenpach suffered a breakdown and has since failed to regain his health. The illness resulted in dropsical conditions, which finally affected the heart after a sickness of two years and five months.

Mr. Mohlenpach was a member of no fraternal organizations but was affiliated with the German Lutheran church.

The funeral services will be held on Thursday afternoon at 2 o'clock at the home, No. 1 Baker street, Rev. Mr. Holler, pastor of the German Lutheran church and Rev. M. Schleiffer officiating. Burial will be made in Cedar Hill cemetery.

CURED TERRIBLE HUMOR ON FACE

Could Not Go On Street Without Veil. Tells What Resinol Did For Her.

Philadelphia, Dec. 6, 1912. — "In December 1908, my face became sore, I tried everything that was recommended, and my face got worse instead of better. I spent over \$100 and got no benefit. The face and nose were very red and the eruption had the appearance of small boils, which itched me terribly. I cannot tell you how terrible my face looked—all I can say is, it was dreadful, and I suffered beyond description.

"I have not gone on the street any time since 1908 without a veil, until now. Just four months ago a friend persuaded me to give Resinol a trial. I have used three cakes of Resinol Soap and less than a jar of Resinol Ointment, and my face is perfectly free from any eruption, and my skin is as clear and clean as any child's." (Signed) Mrs. M. J. Bateman, 4256 Viola St.

Every druggist sells Resinol Ointment and Resinol Soap, but if you have any skin trouble it will cost you nothing to try them. Send to Dept. 14-M, Resinol, Baltimore, Md., for a free sample of each.

A merry hay-ride was enjoyed by a number of Newark's younger social set on Wednesday evening. After a very enjoyable trip to Granville they returned to the home of Miss Irene Smouse near Newark where they all enjoyed a fine supper served by Mrs. Smouse. Those who partook were Misses Alice Williams, Catherine Stoepler, Laura Shultz, Marjorie Fisher, Minnie Heule, Florence Green, Lorie Swartz, Mildred Kuster, Cleo McDonald, Ada Young, Florence Hazlett, Irene Smouse, Messrs. Bud Schaller, Earl Evans, Howard Jackson, Neil Floyd, Harold DeBorde, Paul Stelling, Wilbur Mitchell, Carl Nutter, Charles Gray, Max Conn, Leonard Richardson, Charles Haslop. The party was chaperoned by Mrs. Henley and Mrs. Powell. After a delightful evening all returned home at a late hour.

BOWERS-THOMPSON

At 7:30 Wednesday evening Dr. Sparas united in holy wedlock Mr. George W. Bowers of Centerburg, O., and Miss Ethel Fann Thompson of this city. They were married at Rev. Sparks' home on North Fifth street in the presence of Mr. and Mrs. John C. Loyd, friends of the contracting parties. They will reside in Centerburg.

On Wednesday afternoon the members of the Art Embroidery club were entertained by Mrs. Charles Grill at her home in South Third street. The hostess served dainty refreshments following the diversion of the club. On Oct. 22 Mrs. C. F. Imhoop of Maple avenue will be hostess.

The Hatch home in North Fifth street presented a beautiful picture on Wednesday afternoon. It was laden with a profusion of greenery and autumn leaves, while garden flowers filled every available niche. Mrs. Annie Grace Barrows Hatch entertained at bridge and twelve tables were placed to accommodate nearly fifty players.

A dainty luncheon of several courses was served the guests.

The Tuesday Afternoon Bridge club will be entertained on the club day of next week at the home of Miss Sarah Buckingham in Hudson avenue.

On Friday afternoon Mrs. W. H. Davis will entertain at her home in Hudson avenue with a thimble party.

The members of the Wednesday Afternoon Thimble club were entertained on the club day of this week by Miss Francis Collins at her home in Hudson avenue. The afternoon was spent on the porches and a delicious luncheon was served the members and sixteen guests.

DILLON-TURNER

On Wednesday evening at 7 o'clock was solemnized the marriage of Miss Nellie Turner and Mr. James Clifford Dillon. The ceremony was solemnized by Rev. George Bohon Schmidt, pastor of the St. Paul's Lutheran church at his home in North Fifth street.

The bride was attended by her bridesmaid, Miss Katherine Frye. She was costumed in a gown of blue crepe de meteur with a hat of the same color. She carried a bouquet of bride's roses. The bridesmaid wore a gown of gray voile with a gray hat and carried pink roses. The groom was attended by his best man, George Kinsey.

Following the ceremony a wedding dinner was served at the home of Mrs. H. B. Wheeler in High street. The decorations and the appointments of the bride's tables were in yellow and white. Only the members of the immediate families were present.

Mr. and Mrs. Dillon left on a trip west and on their return will reside in Newark. The groom is a well dresser, while the bride has made her home with her sister, Mrs. H. B. Wheeler. Her traveling suit was of brown cloth, with hat of the same shade.

Mr. and Mrs. Roy Letts of Ashland are visiting with his parents, Mr. and Mrs. O. S. Letts this week. The Ohio Fuel Supply company is repairing the road from the pump station to Utica via Patton's corners preparatory to hauling some very heavy castings and some of the road officials would profit by taking notes as to how it is done and make some application along the roads in their jurisdiction especially along route No. 2.

THE FORWARD-LOOKING WOMAN

THE FIRESIDE WOMAN

By Barbara Boyd

Gentlemanly Politics.

"I wish a genuinely good humorist would arise in the land and write up the humor of the woman's movement," laughed the Forward-looking Woman.

"I think the humorists are poking fun at it," replied the Fireside Woman.

"At it, yes. But I don't mean that. I mean the humor in it, the whole thing, both sides. Seems to me, politics and all the things women are working for, are in the limelight as never before. The condition of many of these things at present makes them unfit for women, and so man, with his usual gallantry, is turning in and cleaning things up. In states where women vote, even the polling places, I understand, are being improved, taking on a coat of whitewash, so to speak; though I hope the improvement goes deeper than whitewash. But it is not only this that is funny; but the reasons that are being projected into the forensic arena as to why women should and should not progress. One of the latest that I have heard is that it is not ladylike. I wonder if it is ladylike to pay taxes. Here is what George William Curtis says in answer to this, and I think he shoots pretty straight, 'But gentlemen say they know a great many women who do not wish to vote, who think it is not ladylike or whatever the proper term may be. I have known a great many men who abstained from politics, because politics are so ungentelemanly. Now what of the proposition that I should not vote, because my gentlemanly neighbors did not vote? Suppose the majority of women do not wish to vote? Is that a reason for depriving one woman who is taxed of her equal representation?' I think it would be a curious looking crowd to get the women who think it is not ladylike to vote and the men who think it is not gentlemanly to vote, off in a bunch by themselves. I wonder what sort of government a crowd like that would evolve?"

"I guess the men would like to belong to the House of Lords and the women be their wives," suggested the Fireside Woman.

"Not altogether. There are some real men in the House of Lords. But even in such a case, I fear their well-bred composure would be disturbed. Things are seething in England far more than they are here. If it isn't ladylike or gentlemanly to vote, I fear we shall soon all be barbarians. But honestly, did you ever hear anything quite so silly? One has nothing but the utmost contempt for a man who thinks it is ungentelemanly to vote because we all recognize the importance of voting, and how vitally close this duty is to the very life of the nation. And I have an idea we will soon have the same feeling for the woman who considers it unladylike to vote. The 'world do move,' you know," laughed the Forward-looking Woman in conclusion.

Barbara Boyd.

Mme. Alda Reduced Twenty Pounds by Swimming in Europe

When Mme. Alda, the beautiful opera singer, and wife of Signor Gatti Casazza, manager of the Metropolitan Opera House in New York, left for Europe in the spring, she weighed too much to suit herself. But how could she reduce. She asked the same question that every third woman asks during the course of her life.

In Europe she found the answer, an answer which might have been given her on any bathing beach in the United States—swimming. By swimming regularly and persistently every day for about two months she lost twenty pounds, and came back with a trim and almost sylph-like figure.

guilt in regard to any of the offenses contained in the category of the usual forms of official misconduct.

"And yet the impeachment managers are now seeking to remove William Sulzer from the office which he has thus honorably filled, fifteen months before the expiration of his term. The only answer is to be found in the articles of impeachment, adopted at dawn on that fatal, the 13th day of August, by the assembly of the state of New York in less than 36 hours after the presentation of the report of an investigating committee which the members of the assembly could not possibly have read or considered.

"When we analyze this collation of offenses we cannot fail to be impressed by the fact that the three fundamental charges relate to acts which occurred and were completed before the respondent entered upon the performance of his duties as governor and took his constitutional oath of office. The court has reserved determination of the question as to whether those transactions constitute grounds for impeachment. That question must now be decided. Will impeachment lie in this state for acts which do not constitute 'willful and corrupt misconduct in office'?"

Mr. Marshall dwelt for nearly an hour on this subject, quoting legal precedent at length.

Find the best kept up house in your neighborhood and you'll find that honest, conscientious painting has done much to create its good condition.

Good paint, properly applied, not only beautifies but preserves as well. A proper choice of colors will do the former, but the latter depends solely upon the quality of the paint.

Aurora is an honest paint.

It is scientifically mixed from pure lead and zinc pigments, with pure linseed oil and turpentine. We could make more profit if we used cheaper materials but we prefer to make more friends.

Aurora spreads easily, covers well, dries firm, yet with an elastic surface that will not crack, blister or peel off.

For interior or exterior house painting, fences, barns and other buildings it is unequalled.

Comes ready for use in convenient sized cans.

For fine interior woodwork effects, use Spartan Art Wood Stains.

If you want to renew the finish on floors, doors, woodwork or furniture, Spartan, the faultless wood finish will do it, quickly and cheaply.

For plastered walls no other finish is so beautiful or sanitary as that obtained by using Spartan Art Wall Finish, a flat drying, washable wall paint.

For your floors use Spartan Floor Wax.

Mrs. Rusk is survived by four children: Maurice of White Cottage, John of Mt. Perry, Chalmers and Miss Anna of the home, and by two brothers and one sister, Joseph Embrey of Mt. Clemens, Mich.; John Embrey and Miss Mary Embrey of Mt. Perry.

Umbrella Workers Strike.
New York, Oct. 9.—Taking advantage of a rainy spell, the United Umbrella Handle & Stick Makers' union has started a strike which it declares will bring out 600 silversmiths and 6,000 umbrella makers in sympathy. The strikers demand recognition of the union, shorter hours, increased wages, sanitary shops, and the abolition of piece work.

CITIZENS FIRST DUTY PROTECTION OF HUMAN LIFE

On July 22nd, 1910 the city of Cleveland voted upon the question of issuing two million dollars of bonds for the elimination of grade crossings in that city. Prior to the rate of the election the committee on city finances of the Cleveland chamber of commerce says:

"The first duty of a city to its citizens is the protection of human life. Grade crossing are a menace to human life and every day that passes increases their danger. Accidents have multiplied in recent years and narrow escapes are reported almost weekly. There has been no appreciable improvement in the methods of safeguarding grade crossings in recent years. The derailing switch, signal tower, gates and crossing watchman, with flag or lantern, are now, as they were ten years ago, the only safeguards—inadequate even at their highest efficiency."

Since city improvements looking to the protection of life must be given first place, the elimination of grade crossings must be named among our foremost requirements.

In considering the elimination of grade crossings as a municipal improvement, we should also bear in mind that this improvement is one of the few in which, by expending a given amount of money, the municipality assures the expenditure of a still larger amount of money on the part of private corporations for the same purpose.

We must build our bridges, and our city hall, and our sewers, and improve our river by recourse to the tax payers' pocketbook; but the railroads are required to pay nearly two-thirds of our grade crossing elimination expense.

Both from the standpoint of protection to life and as a measure of financial expediency, therefore, the grade crossing bond issue should be placed first, or at least among the first, of our municipal requirements.

The above with a general recommendation that the bond issue be approved and have the support of the members of the chamber of commerce was adopted by it July 5th, 1910. The committee on city finances consisted of twenty-two of the leading business and professional men of Cleveland. It will thus be seen that Cleveland has for some time been awake to the advantages of the elimination of the grade crossings of that city and has taken the broad view that the city cannot in justice to itself and its people afford the inconvenience, delays and hazards of grade crossings.

DENISON STUDENT DIES AT HOSPITAL SICK SHORT TIME

Ernest Lowe, aged 19, a student in Denison University, died Wednesday afternoon in the City Hospital after a short illness due to kidney disorder. His parents, Mr. and Mrs. Ralph W. Lowe, of Olean, N. Y., arrived a short time before his death. The body was removed to the Bazzler & Bradley funeral parlors where services were held at 11 o'clock Thursday morning. Rev. Mr. Brelsford, pastor of the Granville Baptist church, officiating. The parents left about noon, accompanying the body to Olean, where interment will take place.

"DON'T KISS ME BABY" ARRIVES AT SAN FRANCISCO

San Francisco, Oct. 9.—Little Miss Marguerite Retchen, aged 4 years, known as the "Don't kiss me baby," has arrived here safe and happy after traveling all the way from Vienna, Austria, alone. Hugging a big Teddy bear, she climbed down from the train yesterday and ran to her mother.

The child bore the following notice printed on an oil cloth sewed on the front of her dress:

"Please, dear folks, direct me kindly to San Francisco to my Mama. All my papers are in my pockets if you need to look at them. I thank everybody ever so much. But, please don't kiss me."

The printing was in German and English.

Everyone she met, she told her mother, "was mighty good to me."

POLICE SHAKEUP IN TENDERLOIN OF NEW YORK

New York, Oct. 9.—What is said to be the biggest police shakeup which New York has known will be effected during the next few days by the uprooting of all the policemen in the Upper West Side tenderloin section and reassigning them with 500 young men just turned out of the police school. The plan of the police commissioner is to experiment in establishing a model police district in what is a most important section, being made up of many of the city's largest hotels and apartment houses and places of amusement. All the police now doing duty there will be transferred to other sections.

J. I. Case Threshing Machine Co., vs. Sanders Mason, leave to file amended answer.

FIRE PREVENTION DAY IS OBSERVED OVER THE CITY

Private residences and business places, cellars, back yards and rear courts were in for a siege in Newark Thursday. Citizens generally manifested deep interest in observation of fire prevention day. The result is, according to Fire Captain Foley, of Central engine house, that Newark is in a good way for a higher rating with insurance companies. Chief Bausch was out most of the day inspecting the general clean-up movement.

Orders recently issued by State Deputy Fire Marshal John Baird have tended to call attention to the need of action.

Throughout the public schools a part of the afternoon's program was devoted to fire drills and working out plans for making quick and orderly exits from the buildings. Particularly timely is the work of constructing fire escapes on several buildings, being done by the Columbia Iron & Wire works of Canton, under direction of the board of education. In several of the schools instructors took occasion to give talks to the students, explaining the necessity for care in preventing fires, and urging them to use influence with their parents to clean up combustible debris near their homes. A half hour period was devoted to instructions on fire prevention.

WORLD'S RECORD LONG DISTANCE WITHOUT STOP

[Special to the Advocate.] Baltimore, Md., Oct. 8.—What is believed to be a world's record for a long distance train run without stops was established by the Baltimore & Ohio railroad Tuesday, with a special train carrying Chicago newspaper men to New York to "cover" the world's series baseball games.

The newspaper men left Chicago Monday on a regular train for New York, but an unavoidable delay west of Pittsburg necessitated special arrangements being made by railroad officials for taking the men to New York in time for the opening game. The special train, consisting of a coach and car containing the baseball experts left Pittsburg at 1:45 a. m. with one of the big mountain-climbing locomotives of the Pacific type. Cumberland was reached, a distance of 147 miles, in three hours and thirty-seven minutes. Engines were changed and the run of 190 miles to Baltimore was made in three hours and fifty-five minutes. A dining car was attached to the special at Baltimore and the next stop was Philadelphia, 96 miles, covered in an hour and fifty-two minutes. The last leg of 91 miles from Philadelphia to Jersey City, was made in an hour and forty-three minutes.

MISS SIEGFRIED WILL ADDRESS THE C. W. B. M. AUXILIARY

The C. W. B. M. Auxiliary of the Central Church of Christ will meet Friday afternoon at the home of Mrs. Otto Ramey, 165 Ninth street at 2 o'clock. Miss Sylvia Siegfried, the Living Link missionary of the Licking County Disciples of Christ to the Philippine Islands, will be present and speak.

Mrs. F. L. Johnson will also speak, giving a brief report from the great Toronto convention.

At 7:30 Friday evening a general reception for Miss Siegfried will be held in the Central Church of Christ. She will again speak of her work in the Philippines. There will be special music and light refreshments. The general public is invited.

BANKER LEAVES PENITENTIARY

[ASSOCIATED PRESS TELEGRAM.] Columbus, Oct. 9.—Ulysses Grant Walker, former Cleveland banker, left the penitentiary today after serving a term of five years for perjury. During the money panic of 1907 he made a false entry of an illegal loan to a publishing company. He will return to his home in Cleveland.

GIRLS! BEAUTIFUL, CHARMING HAIR, NO DANDRUFF--25 CENT DANDERINE

Try this! Doubles beauty of hair in few moments, and stops it falling out.—GIVEN MALE.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments

you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Danderine from any druggist or toilet counter, and just try it.

SAGE TEA KEEPS YOUR HAIR DARK

It's Granmother's recipe to bring back color, thickness and lustre.—Everybody is using it again.

Gray hair, however handsome, denotes advanced age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wispy and scraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred fold.

Don't stay gray! Look young! Either prepare the tonic at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy." Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

SPLENDID WORK ACCOMPLISHED BY THE Y. M. C. A.

The Y. M. C. A. is distributing a folder illustrating its work. No institution in the city provides greater diversity of welfare work than this institution. It stands for the all-round development of young men and boys. It seeks to furnish physical, mental, and spiritual culture to all who come within its influence. It is the great meeting place and storehouse of information and the headquarters for social culture for men who are away from home. Every evening, groups of young men from all classes may be found in its lobby, gymnasium, bathroom and swimming pool. Educational classes are conducted every winter where young men who work during the day can receive instruction at night. Bible classes and Sunday meetings are conducted for the boys. Besides doing specific work in the building, shop meetings are conducted each

IN THE "DORM."

week and the association serves as a general clearing house for all interdenominational effort. According to the 1910 census there are close to 2500 boys and young men between the ages of 10 and 20 in the city. It is to this group of men and boys that the association offers greatest help. Newark people should know that the records made by the local association compare well with those of other associations. About two hundred business men who do not use the privileges contribute each year about \$3,000 for the support of this work. The interest these men have in the work is shown by the promptness with which their subscriptions are met. Last year the shrinkage was not more than five per cent. This speaks well for Newark's citizens. The rates of membership are made so low that no ambitious young man need be denied the privileges it affords.

IT'S A MISTAKE

Made by Many Newark Residents.

Many people in a misguided effort to get rid of kidney backache, rely on plasters, liniments and other makeshifts. The right treatment is kidney treatment and a remarkably recommended kidney medicine is Doan's Kidney Pills. Newark is no exception.

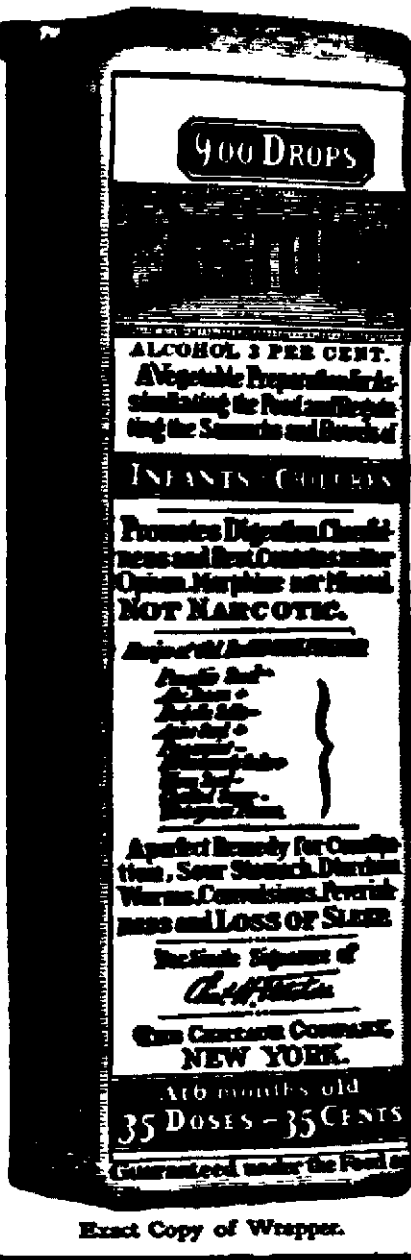

The proof is at your very door. The following is an experience typical of the work of Doan's Kidney Pills in Newark, O.

Mrs. James Donnelly, 19 W. Harrison St., Newark, Ohio, says: "For years we have used Doan's Kidney Pills in the family with fine results. One of us suffered a great deal from kidney trouble and backache. He used Doan's Kidney Pills, procured from A. F. Crayton & Co.'s Drug Store, and they made him better."

If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Donnelly had—the remedy backed by home testimony. 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y.

WOMAN ESCAPES OPERATION

By Timely Use of Lydia E. Pinkham's Vegetable Compound.

Here is her own statement.

Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. HAYWARD SOWERS, Cary, Maine.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Culebra Cut and Its Mammoth Slides

The Completion of This Gigantic Ditch Under Such Unfavorable Conditions Regarded As a Marvel By the Engineering World - A Triumph of Man Over Nature.

THE Culebra Cut will be merely long to Col. D. D. Gaillard, the chief engineer of the Panama Canal. It was the great work of the Panama Canal and it is due to the engineering labors of this eminent army engineer that the Cut is rapidly nearing completion. Colonel Gaillard has been on the job, so to speak, almost constantly for the past seven years, taking only a very limited vacation during the entire time. Slides and geological tasks were constantly on his mind that recently became necessary for him to leave the Isthmus and enter the Johns Hopkins Hospital at Baltimore for treatment on account of nervous trouble.

In order to get the correct idea of the slides and of the vast amount of digging to be done an intimate knowledge of Culebra Cut must be obtained. The length of the Cut proper is about nine miles, extending from Las Chispas to Pedro Miguel—the former being at the end of the Gatun Lake nearest the Pacific ocean, and the latter where the first lock of the descent to the Pacific will be entered by the ships. The Cut will be three hundred feet wide at the bottom, and the water must be about forty-five feet deep to meet the surge elevation of eighty-five feet (that of the upper Gatun locks) which will be maintained through Gatun Lake and the Cut to Pedro Miguel. The Cut has a curve at nearly every mile and at these curves it is widened so as to permit ships to pass easily.

French Machinery Small. The French, with their toy-like machinery, had made a good start when the American engineers took charge, but the Americans at once decided that the task would be hopeless unless larger machinery and more laborers were used. So, the little French cars and shovels were put up in piles and from time to time sent to the United States and sold to junk dealers. They made splendid ballast for the empty cement boats returning to the United States. The French had already experienced some difficulty with the famous Cucaracha slide on the east bank of the Cut just south of Gold Hill, and from that time it has been the hero of the engineers, who have tried every conceivable plan known in engineering to stop its course, but with little effect. The Cucaracha slide is caused by the slipping of the top layer of clay and earth on the sloping surface of a harder material, and during seven years it has poured over three million cubic yards of earth into the Cut. It broke about nine hundred feet back from the axis of the Canal and covers over forty-seven acres. Naturally, it is most active during the rainy season, but in January, 1913, it suddenly became active during the dry season, and carried about two million, five hundred thousand cubic yards more into the Cut. This occurred during a single night and steam shovels, cars, etc., were buried and the tracks were completely blocked for a time, bringing the total amount of sliding earth from this one slide up to about six million cubic yards. The Cucaracha is perhaps the most formidable of all the slides owing to its freakishness in coming in the dry season, and it has been extremely difficult to handle.

Another variety of slides which has given no little trouble is a type known as "breaks." They are due to the steepness of the slopes and the great pressure of the superincumbent material upon the underlying layers of softer material. The best example of a slide of this character is on the west side of the Cut just north of Contractor's Hill, and it covers an area of about seventy-five acres. Already seven million cubic yards of earth have been removed on account of its activity, and the engineers declare that three million more will have to be taken out before the completion of the Canal.

On the east side of the Cut there is another slide of this type covering an area of about fifty acres. Five million cubic yards have been taken from it and much more remains to be removed. It breaks back fully thirteen hundred feet from the center of the Canal.

Number of Slides.

In all there have been twenty-six slides and breaks in the Cut. Seventeen of these covered areas varying from one to seventy-five acres, and nine covered areas of less than one acre each, making in all about two hundred and twenty-five acres. It has been estimated by the engineers and this resulted in preventing a

large amount of earth from slipping into the Canal.

In the spring of 1912 it was rumored that there had been a discovery of volcanic formations in the bottom of the Cut, and soon the entire press of the country gave out this news. The engineers, however, were not greatly alarmed and continued to work. These vaporous emissions, which are said to have been caused by the warm atmospheric effect upon the pyrite material, stopped in July and since then nothing more has been heard of the Culebra Cut volcano. About the same time a great variety of colored stones were brought up. Many of the employees have had them cut and polished and set for various kinds of jewelry. Some of the stones are of the moonstone variety, others very like moss agate, and still another kind is a crystal-like stone hard enough to cut glass. No usable mineral has been found.

Even if slides had not occurred the digging of Culebra Cut was no easy task, for not counting these mishaps one hundred million cubic yards of earth had to be removed to complete this part of the work. While various methods have been employed in building the sea level channels at each end of the Canal only one has been employed in the Cut—digging with dynamite and steam shovels. This is easy enough, but how to manage to get the dirt out was the problem—"Transportation—get the dirt out of the way!" was the cry. For this purpose hundreds of miles of tracks were laid in the Cut, seventy-five of which had to be shifted almost constantly as the work progressed, and this work alone kept several hundred men busy day and night.

Two Carloads of Rock in One Dip.

Various kinds of steam shovels were used but the ones operating in the Cut excavations are nearly all of the "five-yard dipper" variety. When full each dipper carries a two-horse cart load of rock. Of course, the rock is loosened by dynamite, and it is the work of the shovel to scoop it up and dump it on the flat cars. There is something fascinating about the big, clumsy looking machines, and their work seems so accurate that one almost forgets that there is a human brain touching the proper lever. Looking down from the rim they appear like huge, mythological monsters feasting on great chunks of rock, but a more intimate acquaintance reveals the fact that they are machines manufactured in the United States and operated by American engineers. Each operator is as proud of the work of his shovel as a racer is of his speedy automobile, and there is great rivalry over steam shovel records—each man trying to get out the most dirt.

Perfect System of Signals.

The railroading in the Cut will always stand out as one of the world's greatest marvels of transportation, for a train passes every three minutes filled with rocks and earth, yet the accidents are comparatively few. The best way—in fact, the only way to study this railroad problem is to walk through the Cut. To be sure the trip is warm and fatiguing and in a measure dangerous, but the danger can be avoided by watching the trains crossing and in keeping off the tracks. During the height of the work about six thousand men labored in the Cut, and these men who from the rim looked like ants suddenly became active human beings when one stands in the Cut. The trains run in two directions, for some of the material is sent to the dump while the best quality of the stone was sent toward the Atlantic to be used in building the Gatun dam or to be utilized in building the breakwaters at each end of the Canal.

Water Turned Into the Cut.

The rock excavation in the Cut has been practically completed and all steam shovels and drills were taken from the ditch the latter part of September. The lock construction at Gatun is so far advanced that the water was turned into the Cut through the Gamboa dike during the early part of October. Ten of the best steam shovels from the Cut are at present removing material from the east and west banks of the Cut, near the town of Culebra. This is being done to lessen the danger of slides. This removal of material from the banks will continue until about May, 1914. The engineers expect the water to give stability to the sides of the Cut, but they do not expect the slides to cease until after the slides of the Canal have attained repose, and this will require several months.

IN ONE MINUTE! CLOGGED NOSTRILS OPEN—COLDS AND CATARRH VANISH

Hoosier Nasty Discharge, Clears Stuffed Head, Heals Inflamed Air Passages and You Breathe Freely.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catharrh or a cold, with its running nose, foul mucous dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

NEGRO LEAPS INTO RED HOT LADLE AT MT. VERNON SHOPS

Mt. Vernon, O., Oct. 9.—Declaring that he was commanded by God so to do, Cornelius Battles, colored, an employee of the C. & G. Cooper company, yesterday leaped into a ladle used for molten iron in the molding room. Newspaper men who interviewed the negro at the county jail, could find no traces of burns, either on his hands or his clothing. Even the soles of his shoes showed no indication that they had even been scorched.

RESOLUTION

Declaring it necessary to improve Central Avenue from Granville Street to Hoover Street by paving and curbing the roadway thereon in accordance with the plans, specifications, estimates and profiles of the proposed improvement prepared by the Civil Engineer now on file in the office of the Director of Public Service, which are hereby approved, which shall be open to the inspection of all persons interested.

Section 2. The material used in the construction of said improvement shall be asphalt, brick, stone, cement or other material as shall hereafter be determined.

Section 3. That the grade of said street shall be as follows: The grade of the street at its center line shall be as described as follows: Commencing at the north line of Granville Street at an elevation of 129.2 feet above the established datum of the City of Newark, Ohio; thence north along the center line of Central Avenue by a straight grade 115 feet to the south line of the first alley north of Granville Street at an elevation of 129.2 feet; thence north along the center line of Central Avenue by a straight grade 558 feet to a point at an elevation of 117 feet; thence north along said center line by a straight grade 121 feet to a point at an elevation of 117.5 feet; thence north along said center line by a straight grade 76 feet to a point in line with the north line of the south sidewalk on Hoover Street at an elevation of 117.5 feet. The grade of the curb shall be parallel to the curb one inch higher than that described above for the grade at the center line of the street as shown on the plans and profiles now on file in the office of the Director of Public Service.

Section 4. That the whole cost of said improvement, less one-fifth thereof and the cost of interest thereon shall be assessed by the foot frontage upon the following described lots and land, to-wit: All lots and lands bounding and abutting upon the proposed improvement which said lots and lands are hereby determined to be specially benefited by said improvement and the cost of said improvement, shall include the expense of printing and publishing notices, resolutions and ordinances required, and the saving of said cost, together with the cost of construction, together with the interest on bonds issued in anticipation of the collection of deferred assessments and all other necessary expenses.

Section 5. That the assessments so to be levied shall be paid in ten annual installments with the interest on the deferred payments at 5 per cent per annum, provided that the owner of any property assessed may at his option pay such assessments in cash within thirty days from and after the passage of the assessing ordinance to the City Treasurer, in which case said cash assessments shall not include any item of interest upon bonds to be issued in anticipation of the deferred installments of assessments.

Section 6. That the bonds of the City of Newark, Ohio, shall be issued in anticipation of the collection of assessments by installments and in the amount equal thereto.

Section 7. That the remainder of the entire cost of said improvement, not specially assessed, including cost of intersections and the damages awarded any owner of adjoining lands and interest therein and the cost and expense of any such award shall be paid by the issuance of bonds in the manner provided by law.

Section 8. This resolution shall take effect and be in force from and after its passage and legal publication.

Passed September 15, 1913.
HARRY ROSSELL,
President of Council.
Attest: HAROLD G. FRANKLIN,
Clerk of Council.
Approved by the Mayor this 17th day of September, 1913.
F. M. SWARTZ,
Mayor.

The man's unusual stunt was performed immediately after the big ladle had been emptied of its cargo of white hot iron. The ladle itself was so hot that the employees in the molding room could not approach it closely. Despite this fact Battles was uninjured. As a consequence his case presents a puzzling proposition to the county officials who do not know what to do with him.

Battles is a religious fanatic. He claims to have "got religious" six years ago and says that he became "sanctified" four years later. He has frequently conducted meetings among colored people and has been an earnest worker and at times an eloquent speaker on religious subjects.

When interviewed at the jail, concerning his strange action Battle told newspaper men that he is not insane. "I was commanded by the Lord to jump into that ladle. I knew that he would not allow me to come to harm. Of course that ladle was hot, but when the spirit came upon me, all heat disappeared like that," he said, snapping his fingers.

Battle exhibited his hands to the reporters and there was not a blister on them, though one of the men who assisted him out of the ladle, sustained severe burns. Neither was his clothing nor shoes harmed.

Officials of the company feared that Battle had been tantalized until he took the action in desperation but Battle denied this. "No one can make me mad," he said. "The workmen all treated me fine. I am not angry at a soul on earth."

When it was suggested to him that he was insane, Battle denied the charge and declared that those who thought him crazy, were unbelievers and were unsaved.

An affidavit of lunacy will probably be filed against the man though the authorities do not believe that he can be found insane as he talks as clearly and intelligently as any one.

He came to Mt. Vernon from Belaire where he worked in a barber shops.

He states that he was born and reared in South Carolina.

Valuable Discovery in Complexion Beautifier

(From The Home Maker)

Because of its peculiar power of absorption, also because it serves every ennobling purpose, ordinary mercerized wax is perhaps the most valuable complexion beautifier discovered within recent years. If one uses this she needs no toilet cream. Some use powder afterward, but this is not necessary. This rule for applying mercerized wax has been found very satisfactory. Wash the face with warm water, drying lightly. Before thoroughly dry, anoint face and neck with the wax, but don't rub it in. The favorite way is to use before retiring, allowing it to remain on all night and washing it off in the morning with warm water. All druggists have this wax in original one-ounce packages.

For the removal of a wrinkled or flabby condition there's nothing better than to bathe the face in a solution made by dissolving 1 ounce powdered sassafras in 1 pint witch hazel. Beneficial results are quickly noticeable.

BURGLARS ENTER EMERSON STORE; STEAL JEWELRY

Burglars forced an entrance to the Roe Emerson clothing store some time Wednesday night or early Thursday morning, making off with a quantity of jewelry. As far as could be determined, no clothing was taken.

The entrance was gained by forcing a window on the south side of the store which opens onto a small court. The discovery was made shortly after the store was opened Thursday morning.

MANAGER OF PONY CONTEST BROUGHT BACK

D. D. Daly, arrested at New Philadelphia, was brought to Newark Wednesday afternoon by Patrolman Ham Stewart and lodged at the city prison where he will remain until a satisfactory settlement of the pony contest at the county fair is made. It is alleged that Daly secured the services of several youngsters to enter the contest and cast a number of votes at five cents each. He left without a satisfactory settlement.

Daly must not be confused with the Merchants Pony Contest which is being conducted in this city and which is said to be perfectly fair and legitimate. He has no connection whatever with the merchants contest now being conducted in this city.

Sale of Real Estate

I will offer at Private Sale until November first, next, unless previously sold, the Real Estate of the late Wm. H. Wright deceased consisting of:

One house and lot on North Main Street in the Village of Johnstown, consisting of a front lot of a full half acre with good house and barn, fruit etc. There is also a two acre pasture lot in the rear. The front and back lots will be sold together or separately as desired. Location is one of the best in the village.

Also two good farms, situated one mile south east from Johnstown on the new pike now being completed from Johnstown to Newark. One of said farms consists of 128 7-8 acres and the other of 115 acres and will be sold separately or as a whole, as desired.

No better land can be found on the Raccoon or Licking Valleys and no more desirable location can be secured anywhere. A rare chance to purchase a particularly desirable farm or farms for a permanent home, or always worth the money, with a profit, if desired to sell.

We prefer to sell all the Real Estate, both farm lands and town property, at Private Sale, but the time will be limited.

Call soon if interested and look over these desirable properties which will be sold at reasonable prices and terms.

RAISING OF A WINDOW CAUSED MUCH TROUBLE

Occupants of apartments in the west end of the Arcade were given the fright of their lives Wednesday night, and all because one of the tenants sought fresh air. The raising of a window caused persons in adjoining apartments to believe burglars were on the job and a call was sent to police headquarters, across the alley. With lightning speed, more or less, a squad of bluecoats appeared on the scene. Their presence added to the excitement and it was well toward the wee hours before peace and quiet reigned again.

Women Who Get Dizzy

Every woman who is troubled with fainting and dizzy spells, headache, weakness, debility, constipation or kidney troubles should use Electric Bitters. They give relief when nothing else will, improve the health, adding strength and vigor from the first dose. Mrs. Laura Gaines, of Avoca, La., says: "Four doctors had given me up and my children and all my friends were looking for me to die, when my son insisted that I use Electric Bitters. I did so, and they have done me a world of good." Just try them, 50c, and \$1.00 at all druggists or by mail, H. E. Bucklen & Co., Philadelphia or St. Louis.

How the Hoosier Cabinet Saved Miles of Steps

THIS kitchen before being remodeled caused miles of steps every day. It is 16 feet long and 12 feet wide. The table was taken out, the pantry changed slightly and a Hoosier Cabinet added. Now the Hoosier is the center of everything with a splendid light. The old pantry is the refrigerator room with outside icing.

To prepare a meal this housekeeper takes food from the ice-chest to the cabinet, where she works without a step; then to the stove and dining room. Returning, soiled dishes go to the sink then to their shelves. She has her work done in hours less time than before she had her Hoosier.

Last Call for the Hoosier Club!

Every Cabinet Will be Taken by Tomorrow Night

You are letting a remarkable opportunity to save money and health slip through your fingers by not investigating the club plan tomorrow, for this year not another Hoosier Club can be organized.

So many women have grasped this great opportunity to secure a Hoosier on the wonderfully generous conditions of the club plan that it isn't likely there will be a single cabinet left of our limited allotment by 4 o'clock tomorrow afternoon.

As you certainly are going to have a Hoosier sometime, doesn't it follow that you are wasting strength and time and throwing away chances for pleasure by letting this splendid opportunity slip by?

Why not make your kitchen work easy now, instead of putting in more months of drudgery?

Only \$1.00

Puts the Hoosier in Your Home

Come early tomorrow without fail. Join the Hoosier Club, and we will deliver your cabinet and set it up in your kitchen ready to use immediately. You merely deposit the small \$1.00 membership fee, and your cabinet comes without waiting.

This \$1.00 is part of the price—the low national cash price that is not increased notwithstanding the easy conditions accorded Hoosier Club members. Balance is payable in weekly dues of \$1.00, so you never miss the money.

This club method of purchase makes your Hoosier seem like a gift. The entire generous plan is under direct supervision of the Hoosier Manufacturing Company.

If we had many times these cabinets to offer this last day, we know every one would be taken.

But we can now supply only these few more.

This is going to be a lucky number for someone—you. If you get here early. Don't delay. Don't wait to make up your mind tomorrow.

Decide now to be a Hoosier member and enroll first thing tomorrow. Nothing can be more important to your health and happiness than this lifetime labor-saver. Grasp your final opportunity to get one tomorrow. Make up your mind now, and tomorrow be quick to enroll.

Makes Model Kitchen

Whether your kitchen is rather old-fashioned, or your home is brand new, you need the Hoosier to save steps.

For it alone can save you the miles of steps that you must take preparing and clearing up after meals. It combines the function of your pantry and kitchen table in one spot. It puts scientific system in your kitchen work.

With everything you need in cooking within reach, instead of put away somewhere across the kitchen, your work becomes easy.

You save hours of time, miles of steps and long hours of weary standing.

IT IS NOT ECONOMY

to save the small cost of a Safe Deposit Box in our Vault and risk the loss of your valuables by keeping them home where they are constantly subject to fire or theft.

The loss of a single piece of jewelry or important document may be greater than the cost for several years rent of a box in our modern fire and burglar proof Safe Deposit Vault.

We invite you to call and inspect our safe deposit equipment.
